- ✓ Allows using custom URL as a share link in addition to shop URL.
- ✓ Create gift using Cart Rules. It can be gift product, discount percent or amount, free shipping, etc.
- ✓ Select multiple gift products so that your customers can choose their gift.
- ✓ Display popup window or share button on checkout page.

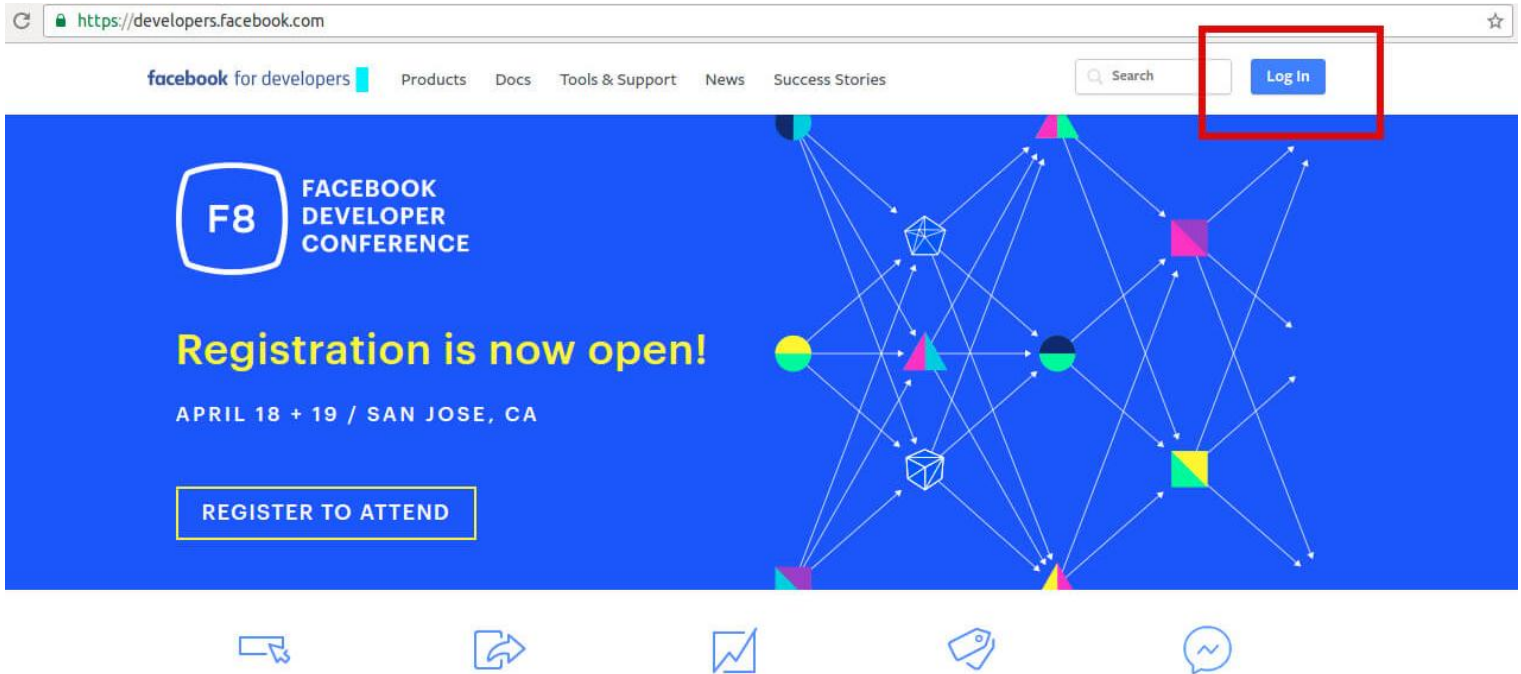

Features

- ✓ Easy to use.
- ✓ Helps you to easily get popular on social media.
- ✓ Helps with SMO.
- ✓ Multishop support.
- ✓ Multilang support.

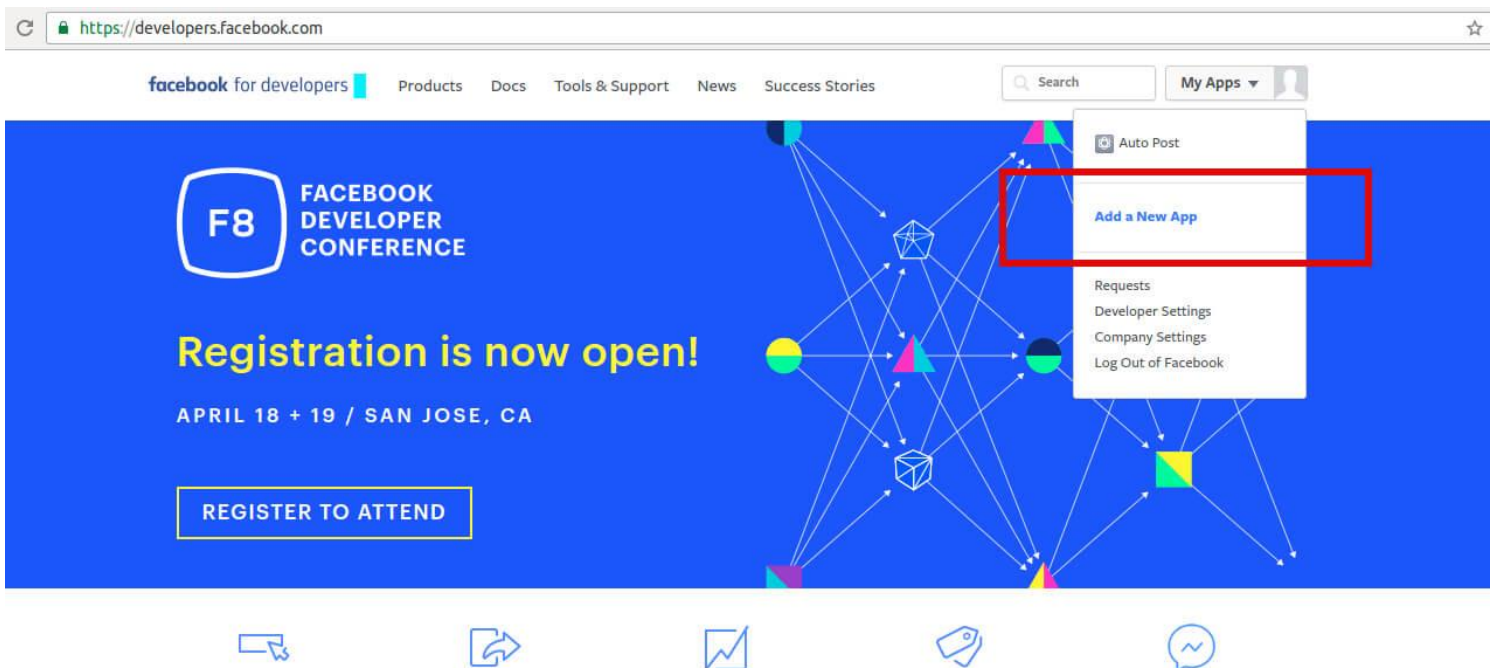

How to Get Facebook App ID

1. Login or Register on <https://developers.facebook.com>

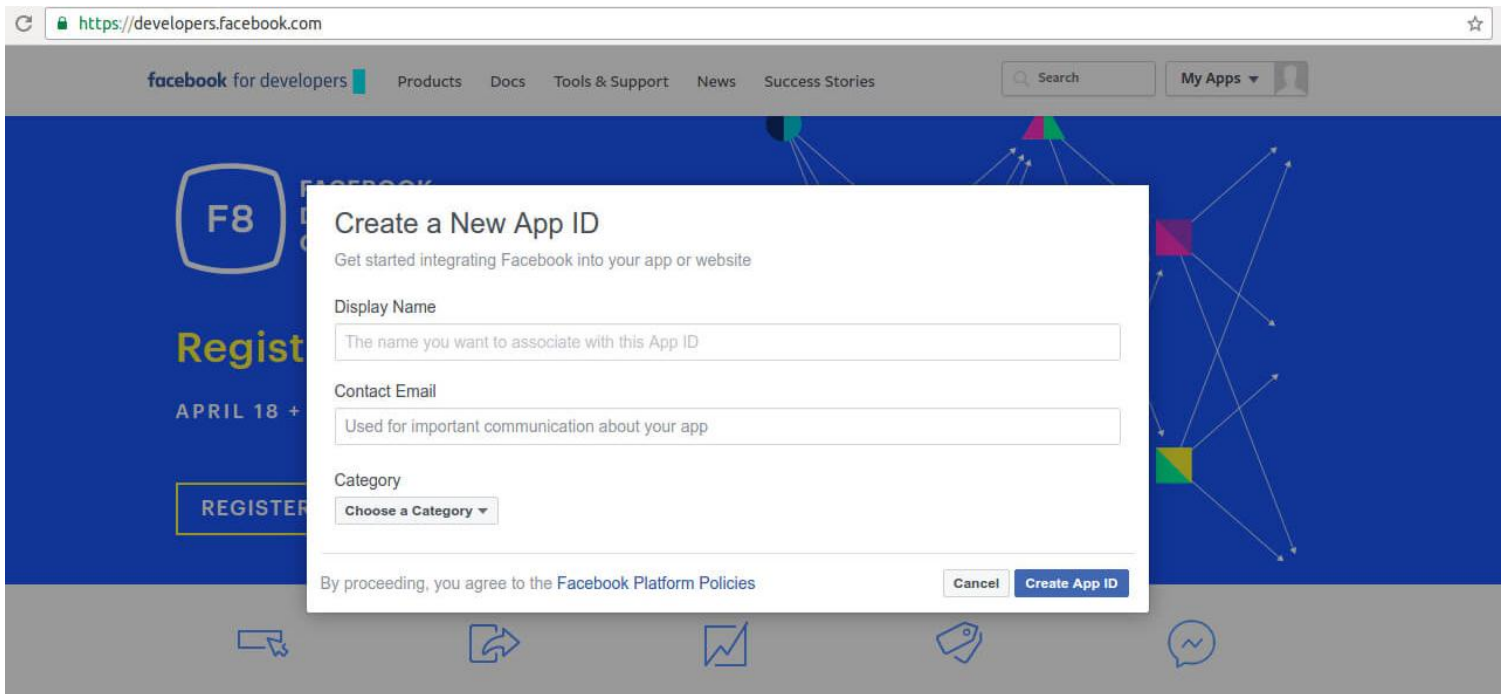

You need to create an App on Facebook in order to use Facebook API.

2. On the top-right corner, under "My Apps" dropdown, click on "Add a New App".

3. Give a name for your app. You may write the name of your store. Fill in other fields and click on "**Create App ID**".

The screenshot shows the Facebook Developers website with a modal form titled "Create a New App ID". The form includes fields for "Display Name", "Contact Email", and "Category". Below these fields is a checkbox for "By proceeding, you agree to the Facebook Platform Policies". At the bottom right of the form are "Cancel" and "Create App ID" buttons. The background shows the Facebook Developers navigation bar and a sidebar with "F8" and "Register" text.

4. Open app's dashboard. You can go to your app's dashboard from the top-right dropdown "My Apps" at any time. Copy "App ID".

The screenshot shows the Facebook Developers app dashboard for an app named "Auto Post". The dashboard includes a sidebar with navigation links like "Dashboard", "Settings", "Roles", "Alerts", "App Review", "PRODUCTS", "Facebook Login", and "+ Add Product". The main content area shows the app's details, including the "App ID" (1766971200200132) and "App Secret". A red box highlights the "App ID" field. Below the app details is a section titled "Get Started with the Facebook SDK" with a "Choose Platform" button. The top of the dashboard shows the "APP ID: 1766971200200132" and a "View Analytics" link.

5. Open the module's configuration on a new tab and paste your "App ID".

The screenshot shows the 'Configure' page for the 'Share us on Facebook and get a gift' module. The left sidebar contains a search bar and a list of modules: Dashboard, Catalog, Orders, Customers, Price Rules, Modules and Services (selected), Shipping, Localization, Preferences, Advanced Parameters, Administration, and Stats. The main content area has a title 'Configure' and a subtitle 'Share us on Facebook and get a gift'. At the top right, there are links for 'Back', 'Translate', 'Check update', and 'Manage hooks'. The configuration form includes a 'Share current shop URL' section with 'YES' and 'NO' buttons. Below this, the 'Facebook App ID' field is highlighted with a red box, with a placeholder text 'Enter your Facebook App ID. You can create an app on https://developers.facebook.com/apps'. There is also a 'Gift products' section with a search bar and a 'Save' button at the bottom right.

6. You will need to make your app Public on App Review page.

The screenshot shows the Facebook App Review page for app ID 1819711358278175. The left sidebar contains a search bar and a list of modules: Dashboard, Settings, Roles, Alerts, App Review (selected), and PRODUCTS. The main content area has a title 'Make Auto Post Test public?' and a subtitle 'Your app is currently live and available to the public.' The 'Make Auto Post Test public?' checkbox is highlighted with a red box. Below this, there is a 'Submit Items for Approval' section with a 'Start a Submission' button. The 'Approved Items' section shows a list of permissions: 'email' and 'public_profile', both of which are approved by default.

7. Open app settings and add a new WEBSITE platform and enter your shop URL to Site URL field.

The screenshot shows the PrestaShop app settings interface. On the left is a dark sidebar with navigation links: Dashboard, Settings (with sub-links Basic and Advanced), Roles, Alerts, App Review, PRODUCTS, Facebook Login, and + Add Product. The main content area is light gray. At the top, there's a 'Website' section with a 'Quick Start' button and a close icon. Below this, the 'Site URL' field is highlighted with a red rectangle; it contains the text 'http://prestashop.local/'. Above the 'Website' section, there are other settings: 'App Domains' (empty), 'Contact email' (js0261756@gmail.com), 'Privacy Policy URL' (Privacy policy for Login dialog and App Details), 'Terms of Service URL' (Terms of Service for Login dialog and App Details), 'App Icon (1024 x 1024)' (with a placeholder icon and text 1024 x 1024), and 'Category' (Apps for Pages with a dropdown arrow). At the bottom of the 'Website' section is a '+ Add Platform' button.

What your customers will like

Customers like 'surprise's and it makes them feel happy with their purchase, because they get a free product for just sharing the shop where they buy online. It is easy and very user friendly.

Fees

This module has one-time fee, so you buy it once and use it forever. There are no recurring fees. Installation and support is provided free of charge on your request during 3 months period after your purchase. You can also purchase Zen Option which will give you 12-month premium support with module updates.
